Studying in the heart of Montréal

1st university city in the Americas and 4th in the world

According to the QS Best Student Cities 2018

A metropolis that bridges North American and European cultures, Montréal has everything a student could possibly want. The proof? In 2018, it was designated one of the best student cities in the world.

This ranking is heavily based on the opinions of students themselves, as well as the city's quality of life—openness, inclusiveness, atmosphere, cost of living, and safety, among other things—and how well the university scores among employers.

Although Montréal is predominantly a French-speaking city, dozens of other languages, including English, are also spoken and testify to the city's impressive cultural diversity.

The island is buzzing with life year-round thanks to a continuous stream of festivals, cultural activities, and sporting events that fill the streets day and night. If you need a breath of fresh air, the great outdoors is only a 30-minute drive away. Discover lakes, mountains, and fields a few kilometres outside of Montréal.

Are you interested in studying in Montréal? You won't be alone! The city counts more than 180,000 university students, including more than 30,000 international students. Of these, more than 3,500 from 90 different countries choose to study at the Université du Québec à Montréal (UQAM) every year.

Please note that UQAM programs are offered only in French. Most of the websites included in this brochure are in French.

02

Choosing UQAM

UQAM is a relatively young university. Founded in 1969, its mission was to broaden access to higher education. Over the years, it has become one of the most important academic institutions in the Montréal, Québec, and Canadian landscape.

An urban identity

The University's main campus and the Pierre-Dansereau Science Complex are located in the heart of two of Montréal's liveliest districts: the Quartier Latin (Latin Quarter) and the Quartier des spectacles (Entertainment District).

Nearby, you will find the Musée d'art contemporain, the Place des Festivals, Place des Arts, the Grande Bibliothèque, and the Cinémathèque québécoise, as well as a wealth of cafes, restaurants, and outdoor dining terraces.

An ideal location

UQAM is directly accessible from the Berri-UQAM and Place-des-Arts metro stations. Bicycle paths and self-service bike stations also serve its 33 pavilions.

A broad selection of innovative programs of study

UQAM offers an array of options for your future, including nearly 250 programs open to international students in 7 main areas: arts, communications, education, management, political science and law, science, and social sciences. Many of these programs are unique in Québec, Canada, and North America.

A focus on practical instruction

At UQAM, theory and practice go hand in hand. Nearly 90% of the undergraduate programs include internships, labs, art or media productions, exhibitions, simulations, and competitions, among others.

High-level facilities

UQAM has innovative facilities in many areas, including a trading room simulating the activities of real-world stock markets, and a meteorology station equipped with instruments for measuring solar radiation.

The University also has a sexology clinic and mental health clinic that graduate students help to run. Multi-technical workshops in art and design, as well as some of the best-equipped film and television production studios in Québec, are also accessible to students.

An international dimension

In addition to welcoming a student population from diverse cultures and walks of life, the University implements mobility programs to circulate knowledge. It also maintains several centres for international research, including the Montréal Institute of International Studies. Over the years, UQAM has established agreements with 468 partners in 68 countries on 5 continents, not to mention the many relationships forged through university networks.

 international.uqam.ca

Dedicated teachers

UQAM counts nearly 3,300 teachers recognized for their commitment, expertise, and availability. The professors, lecturers, and language instructors are passionate about helping their students complete their studies.

[🌐 professeurs.uqam.ca](https://professeurs.uqam.ca)

A modern sports centre

To relax before an exam or unwind at the end of the day, students can visit the UQAM Sports Centre. Activities include physical fitness, swimming, bodybuilding, badminton, soccer, basketball, climbing, jogging, and much more.

[🌐 sports.uqam.ca](https://sports.uqam.ca)

Successful sports teams

At UQAM, students are proud to cheer on the University's sports teams, the Citadins, who excel in basketball, soccer, volleyball, cross-country, golf, cheerleading, athletics, and badminton. If you have talent for one of these sports, you may be interested in wearing the Citadins jersey!

[🌐 citadins.uqam.ca](https://citadins.uqam.ca)

Cutting-edge research

Are you a future researcher? UQAM offers more than 140 graduate programs and ranks among the most important research universities in Canada. It regularly hosts postdoctoral students preparing for a career in research. Overall funding for research and creation is nearly 65 million dollars, positioning the University 1st in Québec and 6th in Canada in terms of research funding for comprehensive universities (Research Infosource, 2017).

[🌐 etudier.uqam.ca/etudes-2e-3e-cycles](https://etudier.uqam.ca/etudes-2e-3e-cycles)

[🌐 recherche.uqam.ca/postdoc](https://recherche.uqam.ca/postdoc)

A dynamic university life

To take full advantage of their time at university, students can get involved in their Faculty or program association, learn about UQAM's student media groups, or join one of the many cultural, multicultural, and community student groups at the University (improv league, legal clinic, community bicycle repair shop, etc.). There are many opportunities to participate in student life at UQAM. Get out there!

[🌐 vie-etudiante.uqam.ca/implication](https://vie-etudiante.uqam.ca/implication)

A wide range of student services

To support students on their academic path and provide the best conditions for success, UQAM offers an array of personalized services: learning support, academic guidance and counselling, job search assistance, financial aid, psychological support, and more. Students with disabilities also benefit from adapted services.

[🌐 vie-etudiante.uqam.ca](https://vie-etudiante.uqam.ca)

03

Discovering the fields of study

Six faculties and one school represent UQAM's main fields of instruction, research, and creation.

Faculty of Arts

The Faculty of Arts is one of the most exciting hubs of Montréal's intellectual and cultural scene.

It offers courses in visual and media arts, dance, design, literary studies, art history, music, and theatre. The faculty is renowned for the excellence of its teaching, research, and creations.

THREE GREAT REASONS TO STUDY ARTS

- The Faculty has long played a key role at UQAM and in its community thanks to its state-of-the-art facilities, galleries, performance spaces, research centres, and various journals.
- Students can rely on professors who are not only caring and dedicated to their success, but also leading experts in their fields.
- The Faculty brings together a community of creative and engaged students from all walks of life who go on to become active participants in every area of society.

 arts.uqam.ca

Faculty of Communication

The Faculty of Communication is one of the largest training centres for communications in Canada. The quality of its programs and professors, as well as the notoriety of its graduates, help build its reputation.

THREE GREAT REASONS TO STUDY COMMUNICATIONS

- Of all Canadian universities, UQAM has the greatest number of professors and students and the most varied programs of study in communications.
- Graduate students benefit from an unrivalled plurality of domains in communications, as well as a pool of over 60 renowned professors with close ties to the professional world.
- Every year, the Faculty of Communication gives around 100 students the opportunity to complete a semester abroad, teaches 10 languages through its Language School and international summer language programs, and offers more than 1,000 internships.

 communication.uqam.ca

Faculty of Education

In a stimulating learning environment, the Faculty of Education trains the next generation of renowned professionals, specialists, and researchers.

Graduates go on to teach young children and adults, in domains that include regular education, special education, remedial education, vocational and technical training, as well as career counselling and university pedagogy.

THREE GREAT REASONS TO STUDY EDUCATION

- Instruction is focused on current issues and adapted to different practical realities. It attaches great importance to culture and to the particularities of multi-ethnic schools.
- Most of the education programs include one or several internships, some of which may be completed abroad.
- Research in education is multifaceted, dynamic, and innovative, as well as attentive to the environment and the increasingly complex challenges in the field.

 education.uqam.ca

School of Management (ESG UQAM)

Recognized for the quality of its practical training, the excellence of its applied research, and its international presence, ESG UQAM affirms its leadership with a bold and forward-looking vision.

THREE GREAT REASONS TO STUDY MANAGEMENT

- ESG UQAM has an urban campus in the heart of Montréal, near the business district and in the hustle and bustle of the arts and culture scene.
- The School offers many hybrid courses (combining in-class and distance learning) in French and English at the undergraduate, graduate, and postgraduate levels.
- ESG UQAM students successfully participate in many inter-university management competitions. This year, for example, they took home 7 out of 10 awards at the Model World Trade Organization, which brought together delegations from 3 continents.

 esg.uqam.ca

Faculty of Political Science and Law

The Faculty of Political Science and Law, the only one of its kind in Canada, teaches tomorrow's political scientists and legal experts how to face the challenges resulting from the major transformations of contemporary society.

THREE GREAT REASONS TO STUDY POLITICAL SCIENCE AND LAW

- The Faculty is dedicated to research and learning in political science and law and values the originality of its interdisciplinary programs, such as its undergraduate degree in international relations and international law, and its combined master's degree in law and international politics.
- The Faculty includes many distinguished professors and often works with chairs and research centres such as the Montréal Institute of International Studies and the Raoul-Dandurand Chair in Strategic and Diplomatic Studies. It includes the International Clinic for the Defence of Human Rights, an organization whose reach extends far beyond the borders of the country, giving students the opportunity to work on real human rights cases.
- The Faculty's students are among the most successful in international simulations and competitions for lawyers in Canada. In 2018, the student delegation was awarded the highest distinction at the New York National Model United Nations for the 11th consecutive year in 13 years.

 fspd.uqam.ca

Faculty of Science

The Faculty of Science is comprised of professors and lecturers from various fields of expertise engaged in basic and applied research.

Courses are offered in small groups and place a great deal of importance on practical work, lab work, and field trips.

THREE GREAT REASONS TO STUDY SCIENCE

- In the past 10 years, the University has invested 20 million dollars in cutting-edge scientific research equipment for the Faculty's teaching laboratories.
- Faculty professors have won many prestigious awards over the years, including Acfas and Prix du Québec awards, and their research produced the top science discovery of the year in *Québec Science* magazine in 2009, 2011, 2014, 2016, and 2017.
- Faculty students have spearheaded many promising projects, including the creation of an urban beekeeping collective and gardens dedicated to urban agriculture, the development of a portable laboratory for testing water toxicity, and the organization of an expedition to Antarctica to explore uncharted territories.

 sciences.uqam.ca

Faculty of Social Sciences

The Faculty of Social Sciences trains competent, innovative, versatile, and critically minded citizens so they may address the toughest societal challenges.

It also promotes knowledge-sharing with professional and governmental circles and with social groups.

THREE GREAT REASONS TO STUDY SOCIAL SCIENCES

- The Faculty plays a vital role in the humanities and social sciences. Thanks to its solid and wide-ranging expertise, it has become a leader in many fields, namely sexology, feminist studies, and Indigenous studies. This acquired knowledge has created a dynamic and stimulating learning environment.
- The Faculty supports the academic success of its students by providing engaged professors recognized as experts in their field, and by awarding more than 200 scholarships totalling over one million dollars every year.
- The Faculty is particularly productive in research thanks to its 25 chairs, institutional centres, and institutes, its renowned experts, and the several million dollars in external grants that it receives annually.

 fsh.uqam.ca

04

Exploring graduate school and research

UQAM offers more than 140 graduate and postgraduate programs to more than 8,000 students. Many of these programs are offered in partnership with other universities in Québec or abroad.

Graduate students can integrate one of the many research and creation units that are institutionally recognized. UQAM has 33 institutional research centres, 26 Canada Research Chairs, 23 Research and Innovation Chairs, 3 NSERC Industrial Research Chairs, 5 UNESCO Chairs, 15 strategic institutional chairs, and 6 institutes.

etudier.uqam.ca/etudes-2e-3e-cycles

Research and creation with a strong impact

Research and creation activities at UQAM centre on a variety of themes and are characterized by the development of innovative approaches. Professors, researchers, and students not only strive for excellence, but also care about disseminating the results of their work.

Many professors have been awarded prestigious prizes for their pedagogical approach and their contribution to research, in Québec and Canada as well as abroad.

Here are a few recent scientific advancements from studies led by UQAM researchers:

- New strategies to fight cancers related to obesity were established.
- The first experimental eco-friendly university “store” was opened to the public.
- The internet's key role in the empowerment and integration of immigrants in Canada was demonstrated.
- A youth program for the prevention of sexual violence was created.
- An infrastructure to study the effects of climate change on forest dynamics was developed.

Research internships

International graduate and postgraduate students may complete a research internship at UQAM under the supervision of one of its professors or in one of its research units.

international.uqam.ca

Postdoctorate

UQAM regularly hosts prominent postdoctoral fellows who foster research and creation in its various research units.

recherche.uqam.ca/postdoc

Finding your research director

Many research-based programs require that the student have a research director before submitting their admission application. Here are a few pointers to help prospective students find a topic and research director.

DIRECTORY OF UQAM PROFESSORS

This directory includes fields of expertise, research units, current research projects, publications, and projects for the 1,135 professors at UQAM.

uqam.ca/facultes

RESEARCH AND CREATION SERVICE PORTAL

The service portal lists all institutionally recognized research and creation units, inter-university groups, research networks, external affiliations, and partnerships developed by UQAM.

recherche.uqam.ca

Support for success

Librarians specializing in different fields of study are available to help postgraduate students right from the beginning of their degree, whether it's by helping them with their research project, offering mentorship, or providing personalized training.

Other resources, such as workshops, support committees, and reference guides, can also contribute to achieving academic success.

vie-etudiante.uqam.ca/conseils-soutien

Financing studies and working in Québec

Hundreds of scholarship programs provide financial support to UQAM students in pursuit of their university studies. See page 27 of this brochure to learn more.

05

Planning your studies at UQAM

The Québec university education system is unique. Here is what you need to know about studying in Québec and at UQAM.

Degree levels and types of programs

In Québec, there are three levels of university studies. At each level, many different programs of varying duration are offered.

Undergraduate level

BACHELOR'S DEGREE

The Bachelor's degree is the most complete training offered at the undergraduate level. In general, it focuses on a single discipline.

BACHELOR'S DEGREE BY COMBINING CERTIFICATES/MINORS/MAJORS

This option is ideal for students wishing to combine training from various related fields while working toward a Bachelor's degree. It is a good choice for those wishing to enhance their knowledge and professional mobility.

You can obtain a Bachelor's degree by combining:

- Three certificates or minors;
- One major and one minor or one certificate.

MAJOR

A major is shorter than a Bachelor's degree and allows you to specialize in a particular field.

CERTIFICATE, MINOR, SHORT PROGRAM

A certificate, a minor or a short program allows you to try out or specialize in a certain field.

To learn about the level of training required to make your dream of studying at UQAM a reality, please read the general admission requirements on our website (Step 2).

etudier.uqam.ca/english/how-to-apply

Duration of undergraduate programs

■ **BACHELOR'S DEGREE**
90 or 120 credits
3 to 4 years full-time

■ **MAJOR**
60 credits
2 years full-time

■ **CERTIFICATE OR MINOR**
30 credits
1 year full-time

■ **SHORT PROGRAM**
6 to 18 credits
1 semester full-time

1 course = 3 credits on average
(depending on program)

Duration of graduate programs

- **MASTER'S DEGREE**
45 or 60 credits
2 years full-time
- **DESS**
24 to 30 credits
1 year full-time
- **SHORT PROGRAM**
9 to 18 credits
Up to 1 year full-time

Duration of postgraduate programs

- **PhD**
90 credits
4 years full-time
- **DIRECT PHD**
120 credits
6 years full-time

In graduate school

MASTER'S WITH THESIS OR CREATIVE THESIS

- The Master's with thesis or creative thesis is aimed mainly at developing the student's research or creative research skills with the goal of contributing to the advancement of their field and gaining expertise that may help them stand out in the labour market or possibly lead to a PhD program.
- The thesis counts for at least half the program credits.
- Depending on the program, students can complete a research thesis, a practical thesis, or a creative thesis.

MASTER'S WITHOUT THESIS OR PROFESSIONAL MASTER'S

- The Master's without thesis deepens the student's knowledge either through practical training or workplace internships, guided work, or action-research work.

MASTER'S DEGREE BY COMBINING DESS/SHORT GRADUATE PROGRAM

- At ESG UQAM, students may combine a DESS and a short graduate program to obtain a Master's degree in administration. A synopsis exercise completes the course.

SPECIALIZED GRADUATE DIPLOMA (DESS)

- The DESS is a high-level professional development program. Some DESS offer transition to the appropriate Master's program.

SHORT GRADUATE PROGRAM

- With a shorter duration, this graduate program pursues the same objective as the DESS. It therefore offers advanced professional training.

Postgraduate level

PHD

- Provides researcher training and the advancement of knowledge in a discipline or field of study.
- This degree concludes with the public defence of a written thesis and can generally lead to a teaching or research position.
- Option to pursue a cotutelle thesis under certain conditions.

DIRECT PHD (DOCTORAT EN CONTINUUM D'ÉTUDES)

- Combining graduate and postgraduate level courses, this program admits students straight after their bachelor's degree.
- One Direct PhD: psychology.

Academic calendar

FALL SEMESTER	September to December
WINTER SEMESTER	January to April
SUMMER SEMESTER*	May and June

* Optional registration for undergraduate students

etudier.uqam.ca/calendrier

Study modes

As an international student, you must register for a full-time course of studies, which is equivalent to 12 or 15 credits per semester at undergraduate level (fall and winter), i.e. generally 4 or 5 courses.

1 course = 3 credits on average (depending on program)

Weekly work load

How many hours do you have to devote to your course work every week? This is a simple equation:

NUMBER OF COURSES	NUMBER OF HOURS IN CLASS	NUMBER OF HOURS FOR WORK	TOTAL HOURS
1	3	6	9
2	6	12	18
3	9	18	27
4	12	24	36
5	15	30	45

Course timetable

REGULAR CLASS DURATION	3 hours
USUAL CLASS FREQUENCY	Once per week for 15 weeks

USUAL TIME SLOTS	
MORNINGS	9:30 a.m. to 12:30 p.m.
AFTERNOONS	2 to 5 p.m.
EVENINGS	6 to 9 p.m.

Some courses may, however, have a specific timetable, continuous or intensive classes for one weekend per month, in the classroom, remotely, or in hybrid mode.

Course requirements

In each of your courses you will receive a course outline during the first class. In addition to explaining the course objectives and evaluation procedures, this outline will provide details of the required reading and the dates of exams and assignment submissions.

Depending on the subject, assessment methods vary: team and individual work, exams, etc. Continuous evaluation will take place throughout the semester.

To ensure that you pass all program evaluations, you must attend all the lectures from the beginning of the semester. Note: Absences lasting more than one week at the start of the semester are not usually accepted.

06

Meeting the language requirements

French-language policy

French is the official language in Québec and at UQAM. To be permitted to study at UQAM, you must have a good command of both oral and written French, as courses, course work, and examinations must be done in French at all levels.

At undergraduate level, you must demonstrate that you have sufficient command of the French language. You will be considered to have sufficient command of French if you have passed the Ministerial Examination of College French (Épreuve uniforme de français pour l'obtention du DEC) or if you already have a degree from a Québec university or equivalent awarded by a francophone university, among others.

If you have obtained a diploma outside Québec that does not meet the criteria to prove your command of French, you must include with your admission application the results of a TFI test (Test de français international).

At graduate and postgraduate levels, you must have sufficient command of the French language. Depending on the course of study, you may be required to undergo a language test and take refresher courses. In some cases, knowledge of a second language may be required. If you have been awarded a diploma outside Québec, some programs may require you to pass the TFI.

etudier.uqam.ca/politique-langue-francaise
etudier.uqam.ca/tfi

Knowledge of English

Proficiency in English is not an admission requirement for most undergraduate programs. However, a minimum command of English is an advantage as you may occasionally need to study reference literature in English.

Nevertheless, proficiency in English is frequently required in graduate and postgraduate programs, as scientific literature is more commonly written in English.

Please note that for certain programs at ESG UQAM, an intermediate command of English is a degree requirement.

Language immersion programs

Do you wish to improve your knowledge of English or French?

Register for one of the language immersion programs offered at UQAM every summer. You will be enrolled in a recognized university course and will have a unique cultural and human experience.

immersion.uqam.ca/en

Language courses

Whether you are starting or continuing to learn a language, you can take advantage of the expertise of the teaching staff at UQAM's Language School, which offers courses in Arabic, Chinese, English, French, German, Italian, Japanese, Portuguese, Russian, and Spanish.

langues.uqam.ca

07

Submitting your admission application

1. Choose one or more programs of study

Nearly 250 UQAM programs are open to international students. You will surely find a program that suits you.

As the choice of program is a vital element of your course of studies, it needs to be thoroughly researched. Please refer to the list of programs at the end of this brochure as well as their descriptions on our website.

 etudier.uqam.ca/programmes

2. Review admission requirements

At UQAM, the evaluation of your application is based on the file you submit. It is essential to ensure that you meet all the requirements for your chosen programs. Consult the pages of the programs of study that interest you to determine the specific admission requirements for each.

For undergraduate programs, if you wish to follow a restricted program, your file will be assessed according to certain requirements and specific selection criteria, e.g. a minimum grade point average, tests, or a portfolio evaluation.

For graduate and postgraduate programs, some of them require that you find a professor who is able to supervise your master's or doctor's thesis and that you reach an agreement with that professor before submitting your admission application.

Restricted program

Study program with a restricted number of students.

Specific requirements

Some specific admission requirements apply to study programs.

To consult all specific requirements

For undergraduate programs:

 etudier.uqam.ca/exigences-programmes-1er-cycle

For graduate and postgraduate programs:

 etudier.uqam.ca/exigences-programmes-2e-3e-cycles

3. Check the admission deadlines

Deadlines to submit your file

SEMESTER	SUGGESTED DEADLINE	OFFICIAL DEADLINE
UNDERGRADUATE PROGRAMS		
Fall	February 1	March 1
Winter*	August 1	September 15
GRADUATE AND POSTGRADUATE PROGRAMS		
Fall	February 1	Varies according to program
Winter	August 1	September 15

* For undergraduate programs, admission to the winter semester is only possible for unrestricted programs.

To speed up the processing of your application and to ensure that you will have sufficient time to obtain your immigration documents for coming to Québec, you are strongly encouraged to submit your application to us as early as possible.

etudier.uqam.ca/dates

4. Complete an application form

You will find the admission application form on our website. This form can be completed online. Please make sure you complete the appropriate form for the program level you are applying for.

etudier.uqam.ca/admission

Whether you wish to maximize your chances of being admitted to UQAM or simply because you are still undecided about your choice of program, you can state more than one option in the same application.

Number of programs possible in the same application

For undergraduate programs: 3

For graduate and postgraduate programs: 2

5. Pay the admission fees and send the required documents

When completing your application online, please make sure that you include the following documents:

- All items required for evaluation of your application as scanned PDFs;
- Your TFI results (or other recognized tests), if applicable;
- A credit card to pay the admission fees.

If your documents are in a language other than French or English, they must be accompanied by a certified English or French translation.

etudier.uqam.ca/documents-requis

Be sure to include all required documents to your application. An incomplete file will delay the processing of your application and could even result in refusal.

6. Notification of admission decision

You will receive a separate response by email for each of your choices.

Approximate processing times for applications

LEVEL OF STUDY	PROCESSING TIMES FOR APPLICATIONS
Undergraduate	6 to 8 weeks after the official application submission deadline
Graduate and postgraduate	Varies (the deadline may extend until May or June for an application for the fall semester)

Participating in a student exchange program: another way to study at UQAM

You can take part in an exchange program and complete a brief course of studies at UQAM for one or two semesters. At the end of this program, you will have completed several courses of your selected program. During this time, you will continue to be officially registered at your home university and you will pay your usual tuition fees. The courses you take at UQAM will be recognized by your home university and you will receive your degree attesting your training from that university.

If you are interested in this type of course, please refer to the exchange program director at your own university. First of all, check if the university you are currently registered at has an exchange program with UQAM.

international.uqam.ca

08

Preparing for your arrival at UQAM

Have you been admitted to a study program at UQAM? Congratulations! But the process doesn't stop there. Before arriving in Québec, you need to complete the following four steps.

1. Complete the formalities for your stay in Québec and Canada

Whatever your home country, you must first obtain the Québec Acceptance Certificate (CAQ).

immigration-quebec.gouv.qc.ca/en

When submitting your application for a CAQ, you must indicate the total tuition fees for your program of studies.

etudier.uqam.ca/cout-bourses

Once you have your CAQ, you need to apply for a study permit from a Canadian Visa Application Centre that covers the territory where you reside.

canada.ca/en/immigration-refugees-citizenship/services/study-canada

2. Register for your courses

At UQAM, when you register for your courses for the first time, you confirm your definitive choice of study program.

If you indicated three program choices on your application for admission and you have been admitted to two of them, you will receive two authorizations to enrol (one per program) in the mail. The authorization to enrol contains all the information you need to choose your courses.

By selecting the courses of one of the programs you have been admitted to, you will also be validating your final choice of program. In addition, as an international student, you must register in your program full time.

etudier.uqam.ca/inscription

A CAQ and a study permit are required for all programs, including two-semester student exchanges. You must have these documents when you arrive in Canada, otherwise you could be refused entry by the immigration authorities. Once you come to UQAM, you must submit a copy of these documents to the Registrar's Office.

3. Reserve your accommodation

Do you plan on renting or sharing an apartment in Montréal? UQAM Student Services can help you find accommodation by providing you with access to a housing database.

vie-etudiante.uqam.ca/hebergement

If you prefer a more comprehensive solution, UQAM's student residences may be of interest to you. There are several residences in recent constructed facilities located five minutes from the university campus.

residences-uqam.qc.ca

4. Organize your stay

At this stage, your departure for Montréal is about to become a reality! To facilitate this transition, a welcome guide for international students, the *Guide d'accueil à l'intention des étudiants étrangers* was created by UQAM Student Services. This guide contains a lot of information that may prove useful to you throughout your stay at UQAM.

vie-etudiante.uqam.ca/guide-etudiants-etrangers

UPON ARRIVAL AT UQAM

The University staff will make every effort to ensure that your first days at UQAM are a smooth experience. When you arrive at UQAM, please talk to the International Students Welcome and Integration Team to:

- Meet resource people without an appointment.
- Attend information sessions.
- Take part in a guided campus tour.

etudier.uqam.ca/rentree/etrangers

We suggest arriving in Montréal at least 15 days before the start of courses in order to take the time to get settled in.

09

Establishing your budget

How much will studying at UQAM cost you? Create your own budget based on the estimated annual tuition fees and other expenses (accommodation, food, clothing, leisure activities, etc.) in the table below.

Estimation of annual tuition fees for a full-time student – 2018-2019*

PROGRAM TYPE	QUÉBEC STUDENTS OR QUÉBEC PERMANENT RESIDENTS	CANADIAN STUDENTS NOT RESIDING IN QUÉBEC	INTERNATIONAL STUDENTS HOLDING A FRENCH PASSPORT OR FRENCH-SPEAKING BELGIANS	INTERNATIONAL STUDENTS
Certificate and bachelor's degree	\$3,095	\$8,270	\$8,270	From \$17,450 to \$21,000 (different cost depending on study program)
DESS and master's degree without thesis	\$3,095	\$8,270	\$3,095	\$17,450
MBA	\$4,190	\$9,360	\$4,190	\$18,550
Master's degree with thesis – 1st year	\$3,565	\$9,390	\$3,565	\$19,720
Master's degree with thesis – 2nd year	\$1,520	\$3,460	\$1,520	\$6,900
PhD – 1st year	\$3,565	\$3,565	\$3,565	\$3,565

PhD – 3rd year	\$2,535	\$2,535	\$2,535	\$2,535
PhD – 4th year	\$480	\$480	\$480	\$480

etudier.uqam.ca/cout-bourses

* Amounts applicable in June 2018. The figures are approximate and are subject to increase without notice. In case there is a discrepancy between the amounts listed here and those provide by Financial Services (student accounts), the latter shall apply.

Do not forget to also plan a certain amount for accommodation, food, transport, clothing, books, leisure activities, phone, Internet, and medical insurance.

etudier.uqam.ca/etudiants-etrangers/cout

Postgraduate scholarships

All international postgraduate students enrolled in a doctorate program at UQAM who meet the criteria are admissible for a scholarship exempting them from higher fees and allowing them to pay the same fees as Québec students.

10

Financing your studies and working in Québec

Employment during your studies

ON CAMPUS

International students can work on campus as soon as they arrive. Many students get temporary jobs with certain services such as student cafés, the Student Recruitment Office, Library Services, or the Registrar's Office.

Work as teaching or research assistants, monitors, or lecturers is also available to more advanced (generally graduate and postgraduate) students.

emplois.uqam.ca

OFF CAMPUS

Some students will have the opportunity to work off campus during their studies at UQAM. To learn the eligibility requirements, as well as the procedure to follow, please see the Immigration, Refugees and Citizenship Canada website.

cic.gc.ca

Financing your studies

Getting a financial boost in the form of a scholarship would be a good start to your journey at UQAM. To support you in continuing your studies, several scholarship programs are available. Why not give it a try!

FONDATION DE L'UQAM SCHOLARSHIPS

The Fondation de l'UQAM offers nearly 900 scholarships of up to \$60,000 every year to students at all levels of study, including international students.

PARTIAL EXEMPTION PROGRAM FROM TUITION FEES

This program corresponds to the tuition fees parity with Québec students.

SCHOLARSHIPS OF UQAM'S INTERNATIONAL RELATIONS SERVICE (SRI)

The SRI manages several scholarship programs directed at international students, including the FRONT award in excellence program for PhD students, students in postdoctoral internships, or students in short-term research residencies.

CANADIAN FRANCOPHONIE SCHOLARSHIP PROGRAM

This program is designed to allow nationals from developing countries of La Francophonie to study in Canada.

VANIER CANADA GRADUATE SCHOLARSHIPS (CGS)

The most prestigious doctoral scholarship in Canada, the Vanier CGS aims to recruit or to keep the world's most promising doctoral students.

FOREIGN SCHOLARSHIPS

Student scholarships may also be available in your own country. To obtain information, contact the Ministry of Education in your country as soon as you receive your admission letter from UQAM.

CA	Continuous admission
*	Programs with specific requirements
PROGRAMS IN BOLD ARE RESTRICTED.	

Regulated professions in Québec

In Québec, exercising certain professions and trades is regulated by professional orders or other bodies. Before your departure, it is recommended that you check whether there are specific standards governing the profession you wish to enter and, if necessary, obtain information from the professional order or regulatory body in your own country to ensure that your training in Québec will be recognized at home.

Some examples of professions governed by professional orders or regulated in Québec:

- Accountant
- Actuary
- Chemist
- Engineer
- Geologist
- Guidance Counsellor
- Human Resources Advisor
- Lawyer
- Notary
- Psychologist
- Sexologist
- Social Worker
- Teacher
- Urban Planner

12

Taking action

Reminder of the steps you must follow

To submit an application for admission to a program

1. Choose one or more programs of study.
2. Review the admission requirements.
3. Check the admission deadlines.
4. Complete an online application form for admission and attach the required documents.
5. Receive the admission decision.

Once you have been admitted to a program at UQAM

1. Complete the formalities for your stay in Québec and Canada.
2. Register for your courses.
3. Reserve your accommodation.
4. Organize your stay.
